Dra.
Ana María Mejía Jaramillo
General Editor
Actualidades Biológicas Journal
University of Antioquia
Medellín, Colombia

Dear editor,

attach you will find the (full article, review, short communication, letter to the editor, book review, abstract, essay) entitled "XXXX" to be reviewed by *Actualidades Biológicas*.

Briefly explain the background of your study, the question or hypothesis you have answered, the main findings and why they are significant.

Indicate why readers of the journal would be interested in the work. Consider the clues provided by the journal's objectives and scope. For example, if the journal requires all published work to have broad implications, explain how your study meets this requirement. It is also a good idea to include a sentence about the importance of the results to the field of study.

We confirm that this manuscript has not been published elsewhere and is not under consideration by another journal. All authors have approved the manuscript and agree with its submission to the *Actualidades Biológicas* Journal.

Finally, we confirm that we have read the **Artificial Intelligence (AI) Use Policy** published in the magazine ([clicking here](#)) and that we fully comply with this policy.

We thank you very much for considering our manuscript for the journal.

Yours sincerely,

IT IS MANDATORY TO COMPLETE ALL THE INFORMATION FOR ALL THE AUTHORS
