RFI MANUSCRIPT PRESENTATION LETTER AND COPYRIGHT TRANSFER AGREEMENT

San Luis Potosí, San Luis Potosí, México
October 10th, 2018

Dear Sirs
Revista Facultad de Ingeniería
Universidad de Antioquia

We are submitting the paper entitled “**Doppler Spectrum Measurements of Vehicular Radio Channels Using a Narrowband Sounder**” to be considered for publication in the Revista Facultad de Ingeniería. This work is an extended version of the paper “**Doppler Power Spectrum Measurements of Vehicular Channels in the 700 MHz Band**” presented at the IEEE COLCOM 2018.

The undersigned authors declare that:

- The author(s) hold the economic and moral rights of the material
- The author(s) hold the entire and exclusive copyright of the material
- We are the only authors and fully responsible for the entire content.
- We satisfied the criteria for authorship described in the journal’s guide for author
- The manuscript is an original work, it has not been published before and it is not under consideration for publication by another Journal, in English and in foreign translations, in all format and media of expression, including print or electronic.
- The author(s) has (have) read and approved the final version.
- If the paper is published, we will transfer the copyrights to the Revista Facultad de Ingeniería, and understand that the material cannot be reproduced without the journal’s permission.
- The subject of the manuscript falls into one or more of the following areas:

Industrial	<input type="checkbox"/>
Civil	<input type="checkbox"/>
Electronic	<input checked="" type="checkbox"/>
Mechanical	<input type="checkbox"/>
Metallurgy and Materials	<input type="checkbox"/>

Environmental	<input type="checkbox"/>
Computer Systems	<input type="checkbox"/>
Electric	<input type="checkbox"/>
Health	<input type="checkbox"/>
Chemical	<input type="checkbox"/>

Mechatronics	<input type="checkbox"/>
Bio-engineering	<input type="checkbox"/>
Telecommunications	<input checked="" type="checkbox"/>

Describe three of the most important contributions of your work (Maximum 90 characters including spaces):

1. Implementation of a channel sounder.
2. Statistical analysis.
3. Replicable platform.

Copyright transfer agreement

If the paper is accepted for publication, we transfer the copyrights to the Revista Facultad de Ingeniería Universidad de Antioquia. The work published by the Journal is available under the Creative Commons *Attribution* License.

Reviewers

To expedite the review process, authors must recommend four potential reviewers, with a PhD degree, and expert in the topic, who are not members of their institution(s) and have published at least one article in the last two years. Two of the proposed reviewers must be from a different country from the principal author's country.
