

Subject index for volume 31, 2018

- Abortion; 31(1):64-71.
 Additives; 31(2):130-138.
 Agonistic; 31(4):267-275.
 Amblyomma; 31(1):26-35.
 Animal models; 31(2):83-92.
 Animal nutrition; 31(2):130-138.
 Association estimates; 31(4):256-266.
 Beef cattle; 31(3):204-212.
 Beta-adrenergic agonist; 31(4):276-284.
 Biohydrogenation; 31(2):110-119.
 Biological biomarkers; 31(4):295-303.
 Breast cancer; 31(4):295-303.
Bubalus bubalis; 31(2):103-109.
 Buffalo; 31(3):165-179.
 Carcass quality; 31(4):276-284.
 Cashew oil; 31(1):59-63.
 Castor oil; 31(1):59-63.
 Cattle populations; 31(3):196-203.
 Cattle; 31(3):165-179.
 Chemotherapy resistance; 31(3):180-187.
 Cluster analysis; 31(2):103-109.
 Conservation of animal genetic resources; 31(2):93-102.
 Conservation; 31(3):196-203.
 Cortisol; 31(1):17-25.
 Crossbred Murrah buffalo; 31(2):103-109.
 Dairy cattle; 31(1):10-16; 31(1):45-58.
 Dendrogram; 31(2):103-109.
 Direct heritability; 31(2):83-92.
 Disease; 31(1):26-35.
 DM; 31(2):150-154.
 Dog; 31(4):315-319.
 Dogs; 31(4):295-303.
 Economy; 31(4):276-284.
 Eggshell; 31(3):223-228.
 EGUS; 31(2):139-149.
 Embryo; 31(4):245-255.
 Embryonic mortality; 31(3):223-228.
 Endoscopy; 31(2):139-149.
 Epidemiology; 31(1):26-35; 31(1):64-71; 31(3):165-179; 31(3):180-187.
 Equine; 31(1):17-25; 31(1):35-44; 31(2):139-149; 31(3):188-195.
 Ethogram; 31(1):17-25.
 Exclusiveness; 31(4):285-294.
 Fatty acids; 31(3):213-222.
 Feed intake; 31(4):267-275.
 Feed supplement; 31(1):59-63.
 Fertility; 31(4):245-255.
 Fish diseases; 31(3):229-234.
 Free radicals; 31(4):245-255.
 Freshwater catfish; 31(3):229-234.
 Genetic bias; 31(4):256-266.
 Genetic correlations; 31(3):204-212.
 Genetic disease; 31(2):150-154.
 Genetic diversity; 31(2):93-102.
 Genetic illness; 31(2):150-154.
 Genetic improvement; 31(4):256-266.
 Genetic mapping; 31(1):45-58.
 Genetics; 31(4):315-319.
 Goats; 31(3):165-179.
 Grassland systems; 31(2):120-129.
 groEL; 31(4):285-294.
 Growth performance; 31(4):267-275.
 Hatching; 31(3):223-228.
 Heritability; 31(3):204-212.
 Histological stain; 31(4):295-303.
 Histology; 31(4):304-315.
 Histopathology; 31(1):3-9; 31(4):295-303.
 Hock hyperflexion; 31(3):188-195.
 Hormone; 31(1):35-44.
 Host parasite relations; 31(3):229-234.
 Hot climates; 31(3):196-203.
 Inbreeding; 31(2):93-102.
 Inclusiveness; 31(4):285-294.
 Incubation; 31(3):223-228.
 Indigenous goats; 31(1):64-71.

- Intersex; 31(4):315-319.
- Introduced species; 31(3):229-234.
- Ionophore; 31(2):110-119.
- Ionophores; 31(1):59-63.
- Johne's disease; 31(3):165-179.
- Karyotype; 31(4):315-319.
- Kikuyu; 31(2):120-129.
- Kinetics of biohydrogenation; 31(3):213-222.
- Knotting; 31(1):3-9.
- Lactation; 31(1):64-71.
- Leptospirosis; 31(1):10-16.
- Linoleic acid; 31(2):110-119.
- Linum usitatissimum*; 31(2):110-119.
- Lipid supplement; 31(3):213-222.
- Litter mean weight; 31(2):83-92.
- Litter size; 31(2):83-92.
- Locally-adapted breed; 31(2):93-102.
- Locomotion; 31(3):188-195.
- Lotus; 31(2):120-129.
- Lysine; 31(4):276-284.
- Male; 31(1):35-44.
- Males; 31(3):204-212.
- Masson's trichrome; 31(4):295-303.
- MAT; 31(1):10-16.
- Maternal effects; 31(2):83-92.
- Mechanical claudication; 31(3):188-195.
- Methanogenesis; 31(2):120-129.
- Micro fissure repairing; 31(3):223-228.
- Mixing; 31(4):267-275.
- Monosex culture; 31(4):304-315.
- Multi-compartmental model; 31(3):213-222.
- Neomales; 31(4):304-315.
- Neotropical region; 31(3):229-234.
- Oocytes; 31(4):245-255.
- Originating genes; 31(3):196-203.
- Ovulation; 31(4):245-255.
- Oxidative stress; 31(4):245-255.
- Parturition; 31(1):64-71.
- PCR-RFLP; 31(2):150-154.
- Pedigree analysis; 31(2):93-102; 31(3):196-203.
- Phenotypic correlations; 31(3):204-212.
- Pig nutrition; 31(4):276-284.
- Polymorphism; 31(1):45-58.
- Polyunsaturated fatty acids; 31(2):110-119.
- Poultry; 31(3):223-228.
- Prevalence; 31(1):10-16.
- Principal component; 31(2):103-109.
- QTLs; 31(1):45-58.
- Rainforest; 31(1):26-35.
- Red clover; 31(2):120-129.
- Reproduction; 31(1):35-44.
- Reproductive disease; 31(4):315-319.
- Response to selection; 31(3):204-212.
- Robustness; 31(4):285-294.
- rRNA 23S; 31(4):285-294.
- Ryegrass; 31(2):120-129.
- Sampling; 31(1):3-9.
- Sampling-related bias; 31(4):256-266.
- Selection pressure; 31(1):45-58.
- Sex reversal; 31(4):304-315.
- Sheep fattening; 31(1):59-63.
- Sheep; 31(3):165-179.
- Single nucleotide; 31(1):45-58.
- Social interactions; 31(4):267-275.
- SOD1 gene; 31(2):150-154.
- Statistical bias; 31(4):256-266.
- Stenosing tenosynovitis; 31(3):188-195.
- Stress; 31(1):17-25.
- Survey; 31(3):180-187.
- Testis size; 31(1):35-44.
- Thermodynamics of biohydrogenation; 31(3):213-222.
- Tissue conservation; 31(1):3-9.
- Transmissible cancer; 31(3):180-187.
- Tumoral biology; 31(3):180-187.
- Ulcer; 31(2):139-149.
- Water composition and quality; 31(2):130-138.
- Water pollution; 31(2):130-138.
- Water purification; 31(2):130-138.
- Welfare; 31(1):17-25.
- Wildlife; 31(1):26-35.
